

# SOLIS Charge & Go Fan

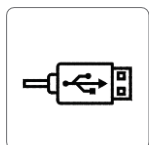

Type 7586

Compact, rechargeable mini fan for perfect refreshment on the go.

## Rechargeable

One battery charge provides 4 hours of operation at maximum speed and up to 15 hours at minimum speed.

## USB charging

Easily charge with the USB port of a power adapter, computer, power bank, etc.

## 4 speed settings

Choose either a quiet and soft or more powerful breeze with a wind speed of up to 4 m per second.

## Foldable

Folds up to save space and can be used in this position to circulate air without direct air flow.

## Many possibilities

Extremely flexible! Place the Charge & Go Fan in almost any position you want.

## On the go

Goodbye power socket! The Charge & Go Fan does not need a power connection.

## Features

- + 4,000 mAh rechargeable battery: The appliance is fully charged in 4 hours
- + The front louver can rotate at high speed and provide a pleasant, gentle draft if desired
- + Detachable front cover for easy cleaning
- + Four LEDs display the wind speed and the battery capacity.
- + Noise level: 38,0 – 48,5 dB(A)
- + Incl. USB charging cable
